  HACKATHON(INTERNAL COLLEGE ROUND)

Education

Techno India University – B.TECH IN COMPUTER SCIENCE –   2022-2025
AIML(ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING)

GPA till date-8.5

PROJECTS

Project 1—type(android application) | *Dialogflow , Java, Google Cloud*

DialogFlow based FAQ chatbot for a food delivery app

- Trained the chatbot in Dialogflow cx with entities and intent management
- Enabled Dialogflow API using Google cloud and downloaded the Json file
- Used it in my java code by adding the dependencies to make the application

Tic-Tac-Toe—type(android application) | *Kotlin,XML*

A simple multiplayer pass and play Tic-Tac-Toe game

- Made an intuitive UI in XML for the Tic-Tac-Toe interface
- Managed player moves for alternate moves
- Handled all the possible winning and draw conditions

(https://github.com/amishra-D/TIC-TAC-TOE)

Legal Lens—type(android application) | *Kotlin,Google AI Studio,Gemini API, Firebase(integration in process)*

An AI powered application which answers legal queries having a chat model and a text-to-text model

- **Chat Model**:The app has a chat model that allows users to ask legal queries and answer them.
- **Text-to-Text Model**:The app also has a text-to-text model which generates detailed responses to the input text
